### Candidate's Personal Statement

My vision is "To build KOTESOL into a community that seeks to enrich its constituents through key initiatives, focusing on professional development, thereby retaining and increasing membership, further encouraging volunteerism within our organization."

I have nine strategic initiatives:

1. Improve and encourage transparency and continuity. Choke points of communication and transactions occur; this needs to change
2. Expand our professional development profile by working within and with other Korean English Teacher organizations; offer more KTT sessions internally and to external organizations.
3. Team up with British Council to help facilitate course offerings, such as CELTA
4. Membership cards will be mailed out by the end of January, 2012.
5. Develop the KTJ, appeal to a broader, worldwide readership, gain "journal status" outside Korea.
6. Increase accessibility variety of TEC. More content for a broader spectrum of readers, migrating to an online version; develop a mobile version.
7. Exclusive online content. Like IATEFL, conference speaker sessions should be available online.
8. Fiscal acuity. Let's end the contention by implementing a transparent, clearly defined, cost-effective auditing process.
9. Limit President's term to 1 year.

Effective leadership is the keystone of success. The vision of the president must inspire and motivate the membership to volunteer and get involved. The trust and confidence an effective leader places in the team, in turn, invigorates others to build, improve, succeed and ultimately grow. It's time to get back to business. As KOTESOL President, I will invigorate our organization and steer us onto the path of progress.

The information I have provided in this form and in my campaign materials is factually accurate and I agree to abide by the Code of Campaign Conduct.

Signed: Julien McNulty
