Candidate's Personal Statement		
<p>Throughout my near decade of teaching English as a second language, I have built upon my passion for inspiring others. Being a teacher of English has allowed me to meet many people from all walks of life. Most of those people have been students, but there have also been many educators as well. I hope to join the Daejeon-Chungcheong Executive Committee to continue to inspire educators to learn more about English education and to help share ideas about how we can all encourage and engage our students. Through KOTESOL I have had the opportunity to meet and be influenced by a plethora of people. It is my wish to give back to this organization and help spread the positive messages KOTESOL has to offer.</p>
