 2016-Present Membership Coordinator, Daejeon-Chungcheong Chapter

Candidate's Personal Statement

I have been a committed member of the Daejeon-Chungcheong Chapter for three years, during which time I have focused my efforts on increasing membership (particularly amongst public school and hagwon teachers - traditionally areas where KOTESOL doesn't enjoy much visibility) and on organizing social events such as our summer picnic and end-of-year party.

Next year I wish to focus my efforts on building and maintaining our chapter membership by continuing our current efforts in advertising and promoting our chapter while also developing closer links with our local education offices in the region to increase our visibility among public school teachers in the region. I also intend to promote discussion of how we can increase awareness of our chapter to hagwon teachers through discussion and action with the other members of the chapter committee.

My ambition and hope for this year is to increase our chapter membership to 100 members (we currently have around 80-90) and to ensure all those get the absolute best the chapter and KOTESOL can give them as members.

Signed: Andrew Griffiths
