Memorandum of Understanding
for a mutually beneficial and non-financial strategic partnership between

The International Academic Forum (IAFOR), Japan
&
KOTESOL, Korea

This strategic partnership will support and nurture IAFOR’s goals of educational cooperation without borders, alongside institutions with an international and internationalizing profile.

IAFOR agrees to credit KOTESOL, as being one of our main partners on the IAFOR website, and in the publications and literature related to the conferences held. This would place KOTESOL on an equal footing with other global affiliates, and IAFOR would provide scope for KOTESOL to showcase its work, and its contribution to educational development.

KOTESOL agrees to promote and support IAFOR, its work, and its events, internally and through connected organs. KOTESOL agrees to nominate a representative member to act as a liaison, and to contribute ideas to help develop and shape the events the KOTESOL is involved with, as well as provide a nominee for the International Advisory Board.
