Summary of 2014 Membership Survey:
(Compiled by Tory S. Thorkelson, M. Ed.)

Survey Overview:
+Prepared between October, 2013 and March, 2014 as part of the Member’s Project.
+Revised based on feedback from a number of KOTESOL Officers and others.
(See survey end page for names).
+Data collected through:
+Email invitations to all members as of February, 2014 (741).
+Survey Links also posted on all KOTESOL Facebook groups.

Participants:
239 total respondents (most from emails with 3 reminders).
207 people completed all questions, 229 through email links and 15 through posted Facebook links.
7 non members responded but one skipped questions.
*N=Note (see below).

**What is KOTESOL doing right?:**

“Conference/workshop presentations are useful and informative. Outlet and groups for foreign teachers to learn from each other Way to bridge the gap between foreign and Korean teachers” (MS#8)

**What could KOTESOL be doing better?**

- “Focus on practical teaching methodology rather than academic master's thesis research results/reports. Enlist Korean government involvement; do away with conference glitz e.g., COEX venue and useless membership cards; Work on attracting more Korean natives; Better recognition of student volunteers at events” (MS#147)

- “less nepotism and more useful stuff! I don't really learn a lot from most of the meetings/presentations I attend or the magazines I receive. It's more like sophomoric journals on "my time as a teacher" . . . and it seems like most of the people who are s/elected are deeply embedded.” (MS#145)
- “I don't know how active or influential KOTESOL is regarding public education policy. I would expect that KOTESOL would advocate for hiring English language teachers from any country, not only "native speaker" countries. KOTESOL might consider reviving the KOTESOL Journal. There is a lot of action and research in happening here, which can and should contribute to the field via publication.” (MS#140)

- “I'd suggest trying to develop your International Chapter membership more. I would be interested in meeting other international members at the international conference, perhaps at a pre-conference gathering. Unfortunately, I can't volunteer to help with that next year, as we are hosting a regional conference here in British Columbia at the same time. I don't seem to receive printed copies of publications or emails about current events and issues. (In comparison, JALT sends me copies of the Language Teacher and sends regular emails about events.) Perhaps I missed it, but I don't think I had any information about social events (the banquet, groups going out for dinner) during the conference in Seoul in October. As a visitor to Korea, it would have been good to have had some informal social interaction. Finally, your questions on this survey relate naturally to people working in Korea. Perhaps a 'Not Applicable' response would be appropriate for some questions for those of us who are not.” (MS#100)

- “Membership is pointless. I joined at the beginning of the new year and was told nothing happens at that time. Nothing has happened since. KOTESOL doesn't publish a journal, what a joke. Three months later, there has been two presentations that were not relevant to anything I needed. No meet and greets. No networking. I'm studying for my ma TESOL and thought this would be a good way to meet like minded people. I'll finish this survey, go to the conference with my ₩40,000 membership fee, throw this on my resume and forget about KOTESOL next year.” (MS#10)

Others:
* Member’s Gala should cost no more than 20,000 won (53% said 15-20,000 won). It should be held as part of the National (27%) or International (31%) Conferences. N2
* Most have no idea about the value of the brand items (51%) and do not care about our current or proposed new brand items.
* Most commonly read publications:
  TESOL Quarterly, TESOL Journal & KOTESOL Publications.
* Suggestions for new SIGs:
  Little agreement but NNEST or Intercultural Communication/Materials development were mentioned more than once or twice.

Notes:
N1: All percentages are rounded up or down to the closest whole number to avoid decimals.
N2: Comments (25) suggest that many of them are not interested in a gala/think it is a waste of money or do not understand what it means.
